

90.10. Information: The CoViD Vaccination and Quantum Energy

Lately, we at 90.10. have been receiving more and more inquiries about the CoViD vaccination. For this reason, I inform you today about your possibilities.

"Burning" of CoViD vaccination before given

You want to use the vaccine offer, but you are unsure because of possible side effects? Depending on your 90.10. products, you have two possibilities to quantum physically refine the vaccine.

If you have a 90.10.-CUBE, take it with you to the doctor or to the vaccination center. Place the syringe intended for you in the cube for at least three minutes. The longer it stays in there and is exposed to the quantum energy field, the better it is.

Think you'll get a funny look from the doctor or vaccination team? Take your chances. My partner and I carry the cube with us every time we visit the dentist and have never had any problems. On the contrary, we always have good conversations that inspire our dentist.

So, on the occasion of the vaccination, talk about the possibilities of reducing side effects with the help of 90.10. quantum technology. You will surely find open ears, because the majority of doctors are concerned about the so short-term approved, little tested vaccines - an uncaring, disinterested doctor you should perhaps change. Anyway, not only are doctors concerned about patient safety, but also, of course, about their own safety and that of their loved ones. So, any advice on ways to protect, maintain health and strengthen the immune system will be accepted with interest and gratitude. In any case, the times when people smiled about 90.10 are long gone. Thanks to the many cases in which 90.10. quantum technology has proven its value, open-minded doctors are now listening more closely and showing serious interest.

If you own a 90.10. POWERCAPSULE (no matter which version), take it with you to the doctor or to the vaccination center. Place its tip directly on the syringe intended for you and leave it there for at least three minutes. Again, the longer the better.

With both methods (cube and capsule) the vaccine is enriched with the information of quantum energy. The support comes from the focus of your inner desire to neutralize the side effects. This has been successful for many drugs, even those administered for cancer therapy. However, since 90.10. is not active in the system of the pharmaceutical industry, we cannot/are not allowed to have studies conducted in this regard.

After CoViD vaccination

We have already received some feedback from the 90.10. community on how to behave after vaccination. According to this, it makes sense to fix a 90.10.-POWERCAPSULE with a plaster on the injection spot immediately after the vaccination. According to the reports of vaccinated persons, it is even more effective to place the whole arm in the 90.10.-CUBE. Both should be done for at least 30 minutes. In this way the blood, cells, and tissues are enriched with quantum energy. The vaccine now in the body is also again influenced by the energy.

Another ideal option is the Quantum Frequency Medicine Network (QFMN) developed by 90.10. in 2020, which we are just launching. The service can be ordered before going to the doctor or vaccination center. Those who miss it should use the offer as soon as possible after vaccination.

The QFMN works with special target coordinates, through which your body is targeted and supplied with quantum energy via quantum entanglement. The energy is "beamed" into your body, so to speak. You think this is impossible? Then take a look at the feedback videos of people who have already made experiences with quantum entanglement using the QFMN. Ultimately, a scientific study conducted in late 2020 in a German laboratory working for the pharmaceutical industry should be convincing. It found beyond doubt that the 90.10. quantum entanglement method has been proven to achieve up to 68 percent faster healing times over a distance of 8,603 kilometers / approximately 5,400 miles.

Mask obligation

A German doctor gave us the brilliant tip to "burn" the mask once in the 90.10.-CUBE, which means to enrich it with quantum energy. The doctor reported to us that his headaches, which usually occurred after wearing the mask for a long time, completely disappeared.

If you have one of the high-energy 90.10.-POWERCAPSULES instead of a cube, you can put it into your mask for at least three hours, but best overnight. Here you do not "burn" the energy permanently into the matter as with the cube but make use of the 90.10. copy effect and transfer the energy into the matter for a limited time. After two days at the latest (or simply every night) you should repeat the process.

If you prefer the permanent energization, but do not have a 90.10.-CUBE, you can use the service of our Quantum Download Network (QDN), which was also established in 2020.

90.10. AG

Blumenbergstrasse 16, 3013 Bern, Schweiz

Here, too, we work with target coordinates. With their help, however, the energy is not "beamed" into the body, but into things of the everyday life. In this case into a mask. The mask stores the energy as if it were permanently inside a cube. While you wear it, however, only its quantum entangled double is there.
